

Communication Plan

Date	07 July 2026
Project Name	CaptionAI: AI Powered Social Media Caption Generator
Maximum Marks	5 Marks

Communication:

The Communication Plan defines how project-related information is shared throughout the development of CaptionAI. As CaptionAI is developed individually, communication is primarily maintained between the Student Developer and the Project Guide/Faculty, ensuring that progress, technical decisions, issues, and milestones are communicated effectively and documented properly.

S.No	Type of Communication	Purpose	Frequency	Mode / Channel	Audience	Owner
1	Requirement Analysis Discussion	Finalize project requirements	Beginning of the project	Faculty Discussion	Project Guide / Faculty	Student Developer
2	Design Review	Review UI design and architecture	As required	Face-to-Face Discussion	Project Guide / Faculty	Student Developer
3	Development Progress Tracking	Track coding progress and resolve issues	Daily	GitHub & WhatsApp	Student Developer / Project Guide	Student Developer
4	Testing & Feature Review	Verify application functionality and identify improvements	After completion of each feature	Faculty Review	Project Guide / Faculty	Student Developer
5	Documentation Review	Organize and review project documents	Before final submission	Google Drive & Email	Project Guide / Faculty	Student Developer
6	Project Progress Review	Track overall project progress and task completion	Twice every week	Face-to-Face / WhatsApp	Student Developer / Project Guide	Student Developer
7	Faculty Review	Provide feedback and evaluate project progress	Once every week	Face-to-Face Meeting	Project Guide / Faculty	Project Guide / Faculty

Communication Objectives

- Ensure clear communication during all project phases.
- Track project progress and task completion.
- Record technical issues and their solutions.
- Maintain proper documentation of development activities.
- Ensure timely completion of milestones.
- Keep all project-related information organized.

Stakeholders

Student Developer	Responsible for planning, development, testing, debugging, deployment, and documentation.
Project Guide / Faculty	Reviews project progress, provides feedback, and evaluates the final submission.

Communication Methods

Face-to-Face Meetings – Used for project discussions, requirement clarification, and review sessions with the faculty guide.

Email – Used for sharing reports, project files, and documentation when required.

WhatsApp – Used for quick communication regarding project updates, meeting schedules, and important announcements.

GitHub – Used to maintain project versions, track code changes, and store the latest source code.

Google Drive – Used to store project documents, screenshots, reports, and presentation files.

Communication Tools Used

- GitHub
- Visual Studio Code
- Google Chrome
- WhatsApp
- Google Drive
- Email
- ChatGPT (for documentation and development assistance)

Risks in Communication

- Delay in receiving feedback.
- Internet connectivity issues during online communication.
- Version mismatch if files are not updated regularly.
- Misunderstanding of project requirements.

Mitigation Strategies

- Maintain regular communication with the faculty guide.
- Keep all project files updated on GitHub.
- Maintain backups of documents in Google Drive.
- Document important decisions and changes.
- Review project progress at the end of each development phase.

Expected Outcome

The Communication Plan helps ensure smooth project execution by maintaining organized communication, timely updates, effective documentation, and regular progress reviews. It supports successful completion of the CaptionAI project while reducing misunderstandings and improving coordination throughout the development process.
